Testing experience in healthcare, enterprise platforms, and automotive systems, including hospital go-live support and on-premises delivery validation. Reproduce workflow and API issues, verify fixes, and work with implementation teams on delivery.

Work Experience

Baichenyuan (Beijing) Technology Co., Ltd., Guangzhou Branch 2026.05 - Present

Test Engineer

- Support hospital-wide go-lives at Guizhou Provincial Hospital of Traditional Chinese Medicine and Shandong Provincial Hospital; reproduce production issues, verify fixes, and follow up through regression.
- Validate smart nursing deliveries; independently test workflows, configuration, and document management, and contribute to Python API and UI automation.

Xiwei Technology (Guangzhou) Co., Ltd. 2025.07 - 2026.04

Test Engineer

- Validate on-premises QMS delivery, core modules, and WeCom/DingTalk notifications; use Apifox for order APIs, asynchronous queries, and basic concurrency checks.
- Test Xiwitab weekly releases, check chart data, follow up defects, and write release notes; build a Pytest + Playwright + Allure UI framework and selected scripts.

Xinghe Zhilian Automotive Technology Co., Ltd. 2024.08 - 2025.05

Automation Test Engineer (Intern)

- Help set up infotainment test benches and automate checks using Python, ADB, and CAN; launch Jenkins jobs, analyze reports, submit defects, and maintain regression scripts.

Project Experience

RainSoul Desktop Writing Workspace

AI-assisted personal project

Electron, React/TypeScript, SQLite

- Follow requirements, UI, acceptance criteria, and Git iterations for a Windows client with offline editing, knowledge management, snapshots, and import/export; AI handles implementation and automated testing.
- Follow up a long-hash overflow issue and specify focused regression requirements; AI validates default and narrow windows, retaining before/after results and the Git commit.
- Study the project's safeStorage credential protection and SHA-256 archive database checks as cryptographic application examples.

Technical Skills

Python, SQL, Linux, HTTP/HTTPS, Apifox, Pytest, Playwright, Git

English proficiency at CET-4 level

Education

Lingnan Normal University 2021.09 - 2025.07

Data Science and Big Data Technology | Bachelor's degree | GPA: 3.2/5.0
