ZHOU Shengli

18306622399 | 3279533794@qq.com

Hometown: Yangdong, Guangdong | Born: 2003.03

Education

Lingnan Normal University 2021.09 - 2025.07

Data Science and Big Data Technology | Bachelor's degree

- GPA: 3.2/5.0

Work Experience

Baichenyuan (Beijing) Technology Co., Ltd., Guangzhou Branch 2026.05 - Present

Test Engineer

- Validate nurse management, PICC specialty nursing, and nursing information systems; independently test business workflows, base configuration, and clinical document management, with release regression.
- Support hospital-wide go-lives at Guizhou Provincial Hospital of Traditional Chinese Medicine and Shandong Provincial Hospital; reproduce issues, verify fixes, and contribute to Python API and UI automation.

Xiwei Technology (Guangzhou) Co., Ltd. 2025.07 - 2026.04

Test Engineer

- Support on-premises QMS delivery with full regression of base data, Plan, and Library; validate WeCom/DingTalk notifications, order APIs, asynchronous queries, and basic concurrency scenarios.
- Test Xiwitab weekly releases, verify chart data, track defects, run release regression, and write release notes; build a Pytest + Playwright + Allure UI framework and scripts for selected modules.

Xinghe Zhilian Automotive Technology Co., Ltd. 2024.08 - 2025.05

Automation Test Engineer

- Automate infotainment, voice, and driver-assistance checks for AY5, AY5-T, and AY3; help set up test benches and framework methods using Python, uiautomator2, Pytest, ADB, and CAN tools.
- Launch Jenkins jobs, analyze reports, record defects, and develop and maintain scripts and regression jobs across vehicle software releases.

Project Experience

RainSoul Desktop Writing Workspace

AI-assisted personal project

Electron, React, TypeScript, SQLite, Tiptap, AI-assisted development

- Follow product requirements, UI decisions, and Git iterations for offline editing, knowledge management, snapshots, and export; AI handles all implementation and automated testing.
- Use the project's local credential encryption and SHA-256 archive checks as learning cases for cryptographic applications; personal involvement centers on product, UI, and version management.

Skills and Awards

Python, SQL, Linux, HTTP/HTTPS, Apifox, Pytest, Playwright, Git

English proficiency at CET-4 level; Honors and awards: None
